

# OBAMA COULD VETO HATE BILL!

There is an increasing chance Pres. Obama could veto the *dangerous, freedom-stealing federal hate crimes bill* recently passed by Congress! This is the same kind of legislation that has taken away free speech in Canada and many European countries.

The hate bill was attached as an amendment to the National Defense Authorization Bill. Pres. Obama threatened to veto the defense bill if Congress includes too much unnecessary spending, such as \$2 billion for extra F-35 fighter engines. He also says the defense bill is a relic of the Cold War, not in touch with present realities of anti-terrorist conflict in Afghanistan.

Now powerful Senate and House leaders, gatekeepers of military spending, are defying Obama. Sen. Daniel Inouye, head of the Senate Appropriations Committee, and his House counterpart, Rep. John Murtha, say they *will* include extra F-35 engines.

This is Obama's first veto threat; how can he afford to back down? Having helped spend America into near bankruptcy, he is using this issue to pose as being a careful guardian of taxpayers' money.

We can encourage Obama to veto the defense/hate bill combination, but we must do so immediately since the hate bill could be on his desk by late September.

Together there is much we can still do to convince the President and Democrats that they will suffer bitter losses at midterm elections next year if they make the pedophile-protecting hate bill into law.

Here's what you can do. (Unfortunately the President's comment line is nearly always jammed).

1. Fax him at 1-202-456-2461 or write 1600 Pennsylvania Avenue, Washington, D.C. 20500. Say: **"Mr. President, we will never forgive or forget if you sign the freedom-stealing, pedophile-protecting hate bill."**
2. In another fax or letter, say: **"Mr. President, please veto the outdated wasteful defense appropriations bill."**
3. Call your U.S. Senate and House members who voted for the hate bill (names listed on the action page at [www.truthtellers.org](http://www.truthtellers.org)). **"I am very angry that you voted for the freedom-destroying, pedophile-protecting hate bill. Please use your influence now to encourage the President to veto it. Otherwise, we will take revenge at midterm elections."**

## Take action now! Freedom depends on it
