

Hate Bill Ends Free Speech.

***Back Obama down
from signing it.***

On July 11 Congress passed the federal hate crimes bill. Calls protesting the hate bill sometimes reached 50 percent of total calls to Senate offices. Democrats ignored Americans and passed the hate bill in both House and Senate. The hate bill is now headed for signature by the President in September. **We must stop him from signing it into law.**

The hate bill violates three amendments to the Constitution:

- **14th Amendment.** The hate bill grants special (unequal) rights, services, and protection to minorities such as homosexuals, Jews, and Muslims.
- **10th Amendment.** It unites federal and local law enforcement into a single police state system.
- **1st Amendment.** The hate bill will soon broaden into a speech crimes law for America, like Canada's, ending free speech.

How can you stop the hate bill and save free speech?

Americans' tremendous anger has erupted in tea party protests and town hall meetings – it must now persuade Pres. Obama not to sign the hate bill. He must realize that if he does, voters will make it a disaster for his political career and the future of the Democrat Party.

Yes, many vital issues concern grassroots America. But America's beating heart is our freedom of speech. A federal hate law will kill it. If our right to free speech dies, all rights perish with it.

From now until fall, we must bombard President Obama's White House comment line with this message: "We will never forgive or forget if you sign the freedom-destroying, pedophile-protecting hate bill." Call 1-202-456-1111; fax 1-202-456-2461.

In the previous Congress, Democrats passed the hate bill yet killed it at the last minute because of discord in Democrat ranks. This can happen now if overwhelming pressure is put on the President. Even if we can't change Obama's mind, massive protest of the hate bill makes it much harder to enforce. It also slows similar hate crime bills scheduled to move forward in September.

Your daily call to the White House can keep alive the beating heart of America, our First Amendment right to free speech.
